

AUTOMATIC TRANSMISSION PARTS

- Friction and Steel Plates
- Hi-Performance Red Eagle Clutches
- Banner, Master and Super Rebuilding Kits
- Bands, Filters, Modulators, Gaskets and Seals
- Gears and Hard Parts
- OEI™ Parts and PowerSolutions™

STANDARD TRANSMISSION PARTS

- Gears for Transmissions and Differentials
- Synchronizer Assemblies
- Rear Axle Shafts
- Clutch Kits
- Clutch Discs, Clutch Covers, Bearings
- Clutch Hydraulics

PRODUCT LINE APPLICATIONS

- Automotive and Light Duty
- Light, Medium and Heavy Duty Truck
- Heavy Duty Off Highway and Agricultural
- Hi-Performance
- Marine
- Motorcycle

MARKETS SERVED

- Original Equipment
- Original Aftermarket
- Original Equipment Improvement (OEI™)

DOMESTIC SALES:

Alto Way • Atmore • AL • 36504

1400 NE 125th St. • N Miami • FL • 33161
305.892.7777 • Fax: 305.892.2060
info@altoUSA.com • altoUSA.com

Distributed by a worldwide network of professional parts distributors. The Transmission Team brands of Alto automatic clutches, TICUSA gears, AltoStandard clutch systems, Alto Heavy Duty friction material and Red Eagle® performance clutches are recognized as the industry standard. Our quality, service and value achieve the highest level of customer satisfaction.

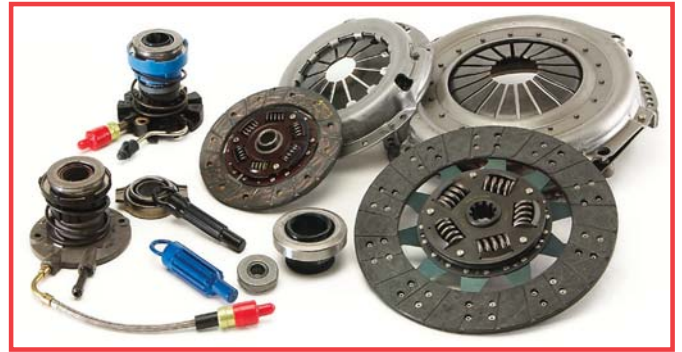

AUTOMATIC

In a word, Alto Products delivers value. Alto Products Corp. is the world's oldest and largest independently owned and operated clutch manufacturer. We offer the most complete line of Friction and Steel plates available in the industry.

We are leaders in aftermarket technology, OEM, and OEI™ manufacturing. We provide cutting edge solutions in friction materials manufacturing, applied power management, and innovations in design and engineering. We manufacture a complete line of rebuilding kits and supply complementary automatic transmission parts.

GEARS

TICUSA transmission components and axle shafts for light, medium and heavy duty transmissions are the industry standard. TICUSA production facilities, located in Spain and the USA, have manufactured OEM and original TICUSA gearing, shafts, synchronizer assemblies and rear axle shafts for over 30 years.

The product is consistent in quality, appearance, and packaging representing the highest standard and best value in the industry.

HEAVY DUTY

We design and formulate friction materials. The friction materials are all non-asbestos for hi-energy and hi-performance utilized in both wet and dry clutch and brake applications for heavy-duty, agricultural, on and off highway applications. For almost 50 years, Alto has supplied over a half a billion clutches and brakes. Our capabilities include in-house tooling for more than 1,000 heavy-duty parts. Our experienced Research & Development team can help you engineer your next heavy-duty application.

CLUTCHES

AltoStandard manufactures and distributes a complete range of standard clutch systems for automotive, agricultural, heavy duty on and off highway applications. We manufacture and distribute five piece clutch kits, individual system components, clutches, covers, bearings and clutch hydraulics. All components are manufactured in house or supplied from an original equipment manufacturer.

HI-PERFORMANCE

Alto is the original manufacturer of Red Eagle® world class hi-performance friction material. Red Eagle® friction has a unique dual saturation, which imparts high performance friction properties and high heat resistance.

Alto is the leader in hi-performance technology with PowerPacks®, PowerBands®, Kolene® Kleen™ Steels, and Rapid Release™ Steels. Our clutches have been imitated but never duplicated in hi-performance applications for over 25 years.
